GENESIS

SILENT SPACE

OVERVIEW

CHANGE IS THE ONLY CONSTANT.

However, we are here to talk about the beginning of an evolution. An evolution of work culture driven by a sense of comfort and efficiency. In the midst of chaos and distractions, we have created a bubble of peace; we call it Genesis. It is time to feel at home, at work.

Genesis is a gateway to the elements of productivity. It is the convergence of privacy, focus and collaboration. Intimate yet open, this space respects individuality while strengthening team work. The Genesis design approach is one of duality, a demonstration of harmony between key standards - body and space, straightforward and inconspicuous, relentless yet delicate, cozy yet open.

We've chosen the materials used to make Genesis with extraordinary consideration. Subsequently, the peaceful structure reflects both the effortlessness and power contained within our idea.

ACOUSTICS

Genesis is a response to the essential need of acoustic solace. Layers of strong wood and acoustic materials, make for great soundproofing between the inside and outside spaces. The broad surface area gives ideal circulation of acoustic materials, prompting the making of a calm, wonderful bubble of peace. The whole structure has been aligned to counter the particular frequencies of the human voice, making it a perfect setting for telephone calls, meetings, conferences and discussions.

MATERIAL

Our choice of materials reflects our commitment to the dual principles of Genesis. The enclosing walls consist of a multi layer acoustic panel which consists of natural material such as perforated wood and polyester aids in reduction of noise. Hence, the acoustic panes are a design element that look, feel and sound good.

DESIGN

In view of the above standards, the idea and highlights work in immaculate congruity. On opposite sides, strong exteriors shield the client from the most tireless sources of noise. The consoling back wall summons an inclination of security, while the surrounding walls disposes of visual diversions. The Genesis design is one with a purpose to fix the most common problem in open plan offices - noise pollution. To engage and evolve, to do less and accomplish more.

TECHNOLOGY

Every Genesis unit comes completely fitted with everything expected to perform at optimal levels. Electrical attachments, USB and LAN associations and an LED light are standard over the whole product offering. These units do not require any additional ventilation systems. They can use the surrounding environment's air conditioning as its own due to the open and flexible design.

POD

The Genesis POD creates a bohemian environment and a casual perception of a work environment while catalysing employee efficiency and productivity. It is a micro office that is less expensive than traditional offices, allowing more people to fit into a smaller space.

3 seater comfortable sofas on either side of a centre table are enclosed by specially designed sound absorbing acoustic walls. The POD is fitted with multiple charging points making it an ideal discussion or conference space that utilises light and ventilation from its surroundings.

3+3 SEATER

2+2 SEATER

WITH HIGH DESK

TECHNICAL DETAILS

3+3 Seater Dimensions (LxWxH)	2700 x 1900 x 1650 mm
2+2 Seater Dimensions	2700 x 1350 x 1650 mm

NOTE: 1. Aluminium extrusions comes with anodised finish.
2. Select one colour of fabric for inner and one colour for outer body panels.

PORTAL

Today's workers must be creative problem-solvers. The Portal privacy pod meets workers' diverse needs for collaboration, privacy, focus and regeneration in a whole new way. With creativity front and center in the work people are doing today, spaces like Portal that optimize the creative output of teams and individuals are increasingly important. The creative process isn't limited to large group brainstorm and open plan collaboration — having access to spaces for focus work or smaller, uninterrupted conversations is just as crucial to unleashing a team's full creative potential.

TECHNICAL DETAILS

Pod Dimensions (LxWxH)	2130 x 900 x 2130 mm
Table Dimensions	2010 x 600 x 1100 mm

NOTE: 1. Aluminium extrusions comes with anodised finish.
2. Select one colour of fabric for inner and one colour for outer body panels.

ARENA

The Arena is a spectacle of ergonomic design and provides multi functionality. Employees have the option of using it not only for collaboration but also individual focused work. There are desk spaces fitted on to the back of the Arena which makes it an additional work area. With electrical supplies for charging devices and Ethernet ports for internet connectivity, the Arena is a complete office furniture design that can help catalyze collaboration and grow employee productivity.

12 SEATER ARENA

MEDIA UNIT

TECHNICAL DETAILS

Arena Dimensions (LxWxH)	4500 x 1750 x 1200 mm
Media Unit Dimensions	1860 x 460 x 1500 mm

NOTE: 1. Aluminium extrusions comes with anodised finish.
2. Select one colour of fabric for inner and one colour for outer body panels.

MULTIPLY

Multiply is based on the concept of functional geometry. The trifecta shape allows you to multiply space utilisation by having 3 exposed sides, each with its own purpose and sheltered from visual and sonic disturbances on all sides.

An average employee has a third less space in their office than they did a decade ago. Genesis Multiply lets you fit more people into smaller task specific spaces.

120° MODULE

TECHNICAL DETAILS

Dimensions (LxWxH) 1900 x 1900 x 1650 mm

- NOTE:
- 1. Aluminium extrusions comes with anodised finish.
 - 2. Select one colour of fabric for inner and one colour for outer body panels.
 - 3. Fabric colour of sofa is always same as of outer body of panels.

REFLECT

Designed for today’s inclusive, flexible workplace, Genesis Reflect was born out of the realisation that teamwork and collaborative events are intrinsic to the success of the world’s top companies.

With a straight forward mirror image design, Reflect serves as a new kind of seating for casual work environments, where employees can relax and rejuvenate, kill time between appointments, and above all feel at ease.

TECHNICAL DETAILS

Reflect Dimensions (LxWxH)	2000 x 1360 x 900 mm
Table Top Dimensions	650 x 550 x 40 mm

NOTE: 1. Aluminium extrusions comes with anodised finish.
2. Select one colour of fabric for inner and one colour for outer body panels.

PEACE IN A POD

D-POD is perfect for holding meetings, brainstorming sessions, one-on-one conversations, as well as a place to rest and rejuvenate away from the disturbance of an open space. It's a comfortable and well-ventilated space with great acoustic properties; resulting in increased employee efficiency and productivity.

The S POD is a single person private space suitable for uninterrupted work and making important calls. This quiet and comfortable workspace can increase employee productivity, especially in an open-concept office.
